PAYDAY RESOURCES

## Client Endorsements

---

### Ackley Masonry

"We have used PayDay Resources for our employee / employer issues for over 5 years. One of the biggest reasons we are currently in business today is because of their assistance. They have provided us with creative ideas to save money, time and headaches."

Bill Ackley, Owner

---

### Kuhni Landscaping

"I switched to PayDay Resources after the prior payroll service provider suggested an incorrect way to administer payroll. After talking with the Department of Labor, I was informed that this company's suggestions were inaccurate. I needed a company that would assist me with these issues and give me correct guidance. PayDay has exceeded my expectations in every way."

Karl Kuhni, Owner

---

### Precision Building Components

"As a new business, I needed a payroll company that offered services and products that best fit my needs at a fair price. PayDay Resources recommended many solutions, including those that addressed workers compensation and other employee-related issues. Implementing these ideas made a huge positive impact to my bottom line. Without their help, I don't know how much time I would have spent dealing with these issues and not bidding jobs."

Justin Peck, Owner

Vinyl Industries

“As the controller at Vinyl Industries, I need accurate and timely payroll information. PayDay Resources offers a comprehensive payroll product. In particular, PayDay gave us three electronic options to manage our payroll. We selected an on-site data-driven application that allows me the payroll control I need.”

Michael Mason, Controller

---

Xavier Painting

“I left PayDay Resources for what I thought was a cheaper service. Well, was I wrong! We paid a la carte for each individual service... check signing and stuffing, additional reports, delivery, etc. While on the golf course, I realized what I was missing. PayDay had an all-inclusive price and even offered golf and skiing. It didn't take long to do the math. It isn't always just about the processing fee.”

Tyler Hawkins, Owner
