How would you like to save
 *5% per year on your *employee labor costs* by doing one simple thing?

Eliminate *buddy punching*
 by adding biometrics to your time clock.

*The AMERICAN PAYROLL ASSOCIATION estimates that "buddy punching" accounts for up to 5% of gross payroll costs each year. The illustration above shows a data sample based on a company with a \$300,000 gross payroll expense each year.

Add biometrics to your already-existing Time Clock with our **NEW PrintReader™!**

Now a biometric solution can be easily added to your existing timekeeping system in just a few minutes. Saving on labor costs and preventing employee time theft by eliminating "buddy punching" will save your company thousands in labor costs each year while improving

CONTACT US TODAY to learn more about adding biometrics to your current timekeeping system.
